

DatasetWater

- The Excel file *DatasetWater.xlsx* contains the following variables for 18 water brands:

1) *Bicarbonates*

2) *Nitrates*

3) *Potassium*

4) *Calcium*

5) *Magnesium*

Find the optimal number of clusters for the water brands and describe the main characteristics of the clusters you have identified.

Send a brief report to giovanni.deluca@uniparthenope.it
