

How to access teaching material

You can access the teaching material of the Course either on Teams or on the e-learning platform.

1. **Microsoft Teams** – the Team code of the the Course is **5612r12**. If you can't access such Team, please send an e-mail to prof. Giunta (giulio.giunta@uniparthenope.it) in order to be added to the member list of the Team.

In the **File** folder you will find the folder **Course Material** that contains the slides of the lectures and the Matlab Tutorials for the Lab applications. In the folder **Recordings** you will find the recorded lessons of the past academic year 2021/22 (in English). You will also find 3 files of the short and extended syllabus and of information about the exam.

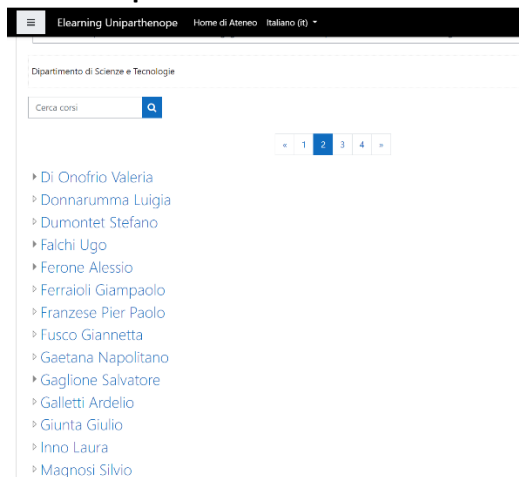

2. **E-learning platform** – The welcome pages of the University's e-learning platform are in Italian (elearning.uniparthenope.it).

You will be asked to insert your Italian Fiscal Code and then the password given to you by the University at the end of your enrollment process.

If you succeed in providing your credentials you will get the following page

Click on **Dipartimento di Scienze e Tecnologie**

Click on **Giulio Giunta** and then insert the name of the Course
